PART 10 - Special Access Services - East

Original Sheet 1

SECTION 10 - Federal Government Specialized Services and Arrangements

10. Federal Government Specialized Services and Arrangements

(Z)

10.7 Federal Access Solutions Transport (Fast) Program

(A) General Description

This section contains conditions, rates and charges applicable to the provision of the Fast Program to any customer awarded a contract to provide telecommunication services for the exclusive use of the Federal Government, Agencies of the Federal Government, or authorized agents of the Federal Government. The Fast Program will allow each of the Federal Government's authorized contractors providing network services under contract to obtain discounted rates for specified services in return for certain term commitments for dedicated Special Access connections to government locations.

This section does not apply to agencies that have not been awarded a special government contract.

(B) Services Available Under the Fast Program

The Fast Program is provided as a monthly service arrangement with a 3-year service period for the following Services listed below:

Service	General/Basic Description
GigaMAN Service	Part 10, Sect. 7.17
MON Ring Service	Part 10, Sect. 28.1
Optical Carrier Network (OCN) Point-to-Point Service	Part 10, Sect. 23.1

(Z)

(C) Limitations

(Z)

- (1) Not in use
- (2) Nonrecurring Charges will apply
- (3) When a rate element is ordered under the Fast Program, that rate element may not be used for non-Fast Program services. No portion of a multiplexed rate element may be used under the Fast Program unless the entire rate element is available under the Fast Program. Rate elements not included in the plan are not available under the Fast Program and must be purchased from the appropriate tariff or guidebook.
- (4) Lower speed non-Fast services may occupy a channel of a Fast Program DS1 service as long as the lower speed service is being provided to a Fast Program eligible customer.
- (5) During the term of the selected Fast Program, Telephone Company initiated recurring rate changes (increases or decreases) will automatically be applied to the monthly payments for the remaining months of the current Fast Program term.
- (6) The monthly recurring rate during the Fast Program term will never exceed the rate in effect at the beginning of the customer's Fast Program term.
- (7) The Fast Program cannot be combined with any other tariffed or guidebook services, discounts, or pricing flexibility contracts, unless explicitly stated in the respective tariff terms and conditions.

(Z)

(D) Terms and Conditions

(Z)

(1) Conversions of an Existing Fast Program to a Different Fast Program Term

At any time prior to the expiration of the FAST Program Term, if the FAST Program has not been grandfathered, a conversion may be made to a new 3-year FAST Program term. The FAST Program term must occur between the same two termination points as the original service being converted and will become effective upon completion of the conversion activity. The rates, terms, and conditions applicable for the new 3-year FAST Program term will be those in effect at the time the conversion is completed.

(2) Upgrading an existing AST Program service to a Higher Speed Service

At any time during the FAST Program term, service may be upgraded to a higher speed service. The new higher speed service must occur between the same two termination points as the original service being upgraded. The new higher speed service must be on a new term contract that has an expiration date beyond the expiration date of the FAST Program term being terminated. The rates, terms, and conditions applicable for the new contract term of the higher speed service will be those in effect at the time the conversion is completed. Nonrecurring installation charges associated with the higher speed service are applicable.

(3) Conversion from Existing Month-to-Month Service to a new FAST Program Term

Customers may convert from existing month-to-month service to a new 3-year FAST Program term. If physical changes occur, the activity would be classified as a termination of the month-to-month service and installation of a new 3-year FAST Program term. Customer will be responsible for all nonrecurring installation charges associated with the new FAST Program term.

(4) Not in use

(Z)

(E) Termination Liability

(Z)

When a FAST customer's disconnection is governed by the Federal Acquisition Regulations, then the termination provisions found in the Federal Acquisition Regulations apply.

When a FAST customer's disconnection is not governed by the termination provisions of the Federal Acquisitions Regulations, a termination charge will be calculated as follows:

(Monthly recurring FAST rate) X (number of net terminated FAST circuits subject to termination charges) X (months remaining in SBC FAST term) X (50%).

(F) Expiration of the FAST Program

The FAST Program term is not available for renewal. At the expiration of the FAST Program term, the customer may select a new SBC FAST Program term at the prevailing FAST Program rates. If the customer does not wish to purchase a new FAST Program term at the expiration of the term, the customer's service will automatically convert to the current month-to-month or monthly extension rates found in the appropriate tariff section.

(Z)

10.7.1 Rates and Charges

(Z)

Gigabit Ethernet Metropolitan Area Network (GigaMAN)	USOC	3-Year
Local Distribution Channel-per Point of Termination	TMECS	\$ 2,500.00
Interoffice Transport Mileage-Fixed	1L5XX	100.00
Interoffice Transport Mileage-per Mile	1L5XX	75.00
Repeater-each	VU4	850.00
Diversity Options		
Local Channel Diversity-per Channel Terminating Bit Rate 1 Gbps	CPALX	625.00
Interwire Center Diversity-per Channel Terminating Bit Rate 1 Gbps	CPATX	375.00
Alternate Wire Center Diversity-per Channel Terminating Bit Rate 1 Gbps	CPAAX	1,075.00

For GigaMAN Non-Recurring Charges, the rates in Part 10, Section 7 and 24 are applicable.
