A pole attacher must require its contractor(s) to meet all requirements that Frontier requires of its qualified OTMR/Self-help contractors, including without limitation compliance with financial and reliability requirements, safety requirements (including without limitation the National Electrical Safety Code and the Telcordia blue book), notice requirements, permitting requirements, insurance, bonding and liability responsibilities, and all applicable rules, regulations, and standards. Subject to Frontier’s consent, which will not be unreasonably withheld, new and existing attachers may request the addition to the list of any contractor that meets the applicable requirements.
